GOV'T TARGETS TO RAISE AQUATIC EXPORT VALUE TO NEARLY US\$8 BLN BY 2025

The Government targets to raise the aquatic export turnover to US\$7.8 billion by 2025, according to its latest national program on aquaculture development for 2021-2030.

The overall goal of the program is to advance the development of aquaculture in an effective and climate resilient manner, improve the productivity, quality and competitiveness of aquatic products.

The nation's annual aquaculture output is expected to reach 5.6 million tons in 2025 and 7 million tons in 2030 from 4.75 million tons in 2021.

VIET NAM PUTS US\$2.8 BILLION THERMAL POWER PLANT INTO OPERATION

A ceremony was held in Thanh Hoa province on Sunday to mark the inauguration of US\$2.8 billion Nghi Son 2 thermal power plant.

The plant, built under "build-operation-transfer", is expected to contribute around 7-8kWh to the national grid each year without
