

Despite the many headwinds inhibiting the global and Vietnamese economies in 2022, Vietnam achieved the 10-year record high GDP growth rate of 8.02% for the year, also the highest in the region. The year also saw over 200,000 enterprises established or resuming their operations, representing a year-on-year increase of 30.3%.

For 2023, the Government aims to achieve macro-economic stability, fast economic growth and low inflation, and plans to put more effort to accelerate the institutional and administrative reforms, infrastructure construction and urban development and boosting up production. Various policies have been made to effectively mobilise resources from the local and foreign, private and state-owned businesses in sectors of energy, infrastructure for digital transformation, green transition and transport infrastructure, among others.

On the occasion of His Excellency Pham Minh Chinh, Prime Minister of Vietnam's visit to Singapore, the Embassy of Vietnam in Singapore in collaboration with the Ministry of Planning and Investment of Vietnam is organising the "Vietnam – Singapore Business Forum"

We cordially invite you to join us at the "Vietnam – Singapore Business Forum", to hear the key messages of our Government's leader to the foreign business communities; discuss the matters relating to the policies for boosting up the post-pandemic economy in 2023 and the years ahead with our leaders of key economic ministries including Planning and Investment, Industry and Trade, Finance, Agriculture and Rural Development, Education and Training and the provinces of Vietnam; and meet and match with our business leaders from Vietnam.

To facilitate planning, please RSVP by 8 February 2023 via http://bit.ly/SingaporeEng or scan the QR code

We look forward to seeing you at the "Vietnam – Singapore Business Forum".

You can refer to tentative agenda HERE.
