NEW-GENERATION FTAS REPRESENT GROWTH DRIVERS FOR VIETNAMESE EXPORTS IN 2022

The effective implementation of new-generation free trade agreements (FTAs) can be considered as the driving force behind fulfilling the export target of over US\$356 billion set for this year.

Moving forward, import-export activities this year are projected to see robust growth as the demand for goods on the global market increases, according to industry insiders.

In fact, several economies continue to deploy stimulus packages aimed at directly supporting people impacted by COVID-19, thereby promoting the import of goods, including those from the Vietnamese market. *(Continue reading on page 2)*

VIETNAM AIMS TO BECOME ATTRACTIVE INVESTMENT DESTINATION IN SEA

The COVID-19 pandemic has negatively impacted all aspects of life, although the spirit of innovative start-ups over the years has greatly contributed to economic development and the nation's further recovery. Last year, despite complicated developments relating to the pandemic, the financial source of investment for *(Continue reading on page 3)*
