Organised by:

Delivering decision-makers from key Asian verticals

Where are they from?

Building & Construction

Defence Intelligence

Disaster & Emergency

Energy & Utilities
(including datacentres)

Government Services

Healthcare & Disease Management

Insurance & Risk Management

Mining & Exploration

Precision Agriculture & Forestry

Critical Infrastructure

Manufacturing

Maritime & Ports

Real Estate & Retail

Road & Rail

Smart Cities

Transportation & Logistics

Leaders in discussion

“ Geo Connect Asia offered a great opportunity to understand first-hand the dynamics of the region’s markets and the many connections to Arup’s work, where our portfolio of activities harnesses the best of data, technology and AI to meet the challenges of growth, decarbonisation and climate change in the built environment.

The event brings together stakeholders from leading government agencies and enterprise, plus a vibrant tech ecosystem, and is a great way of experiencing cutting edge innovation as well as meeting clients and making new contacts.

Will Cavendish
Global Digital Lead, Arup

Contacts worth travelling for

INTERNATIONAL AND REGIONAL SPEAKERS

Why participate in Geo Connect Asia?

We know you have multiple marketing options. Meeting face to face in an Asian context is proven to be one of the best investments you can make. Reasons to join us include:

- Meet decision-makers from fast-growing markets across Asia and beyond
- Reinforce your relationships one on one with clients and their networks
- Make contact with new prospective buyers and increase your sales pipeline
- Raise your brand's standing in a co-ordinated regional multi-platform campaign
- Build and/or reinforce your distribution network with pre-show training meetings
- Present your latest solutions at the Tech Talk Stage and the conference platforms
- Support your show participation with sponsorship add-ons for extra engagement

Consult the Organiser's at any time to seek advice on how best to build value around your participation. Book early to benefit from the hosted buyer programme.

If you are influential in specifying the following products & solutions this event is for you!

- Aerial Photography
- AI & Data Science
- Augmented Reality
- Cartography
- Data & Cloud Management
- Digital Terrain Analysis
- Drones Solutions
- Earth Observation & Satellite
- GIS Software & Services
- Global Navigation Satellite System (GNSS)
- Ground Penetrating Radar
- Indoor Mapping
- Instrumentation & Automation
- Light Detection and Ranging (LiDAR)
- Mobile Mapping
- Modelling & Visualisation
- Optical Imagery
- Photogrammetry & Remote Surveys
- Radar
- Robotics & Autonomous Systems
- Satellite Image
- Surveying Instruments & Services
- Synthetic Aperture Radar
- Topography Surveys
- Virtual Reality
