CREATING A GREEN LIFE

ECO STRAWS VIETNAM EXPORT JOINT STOCK COMPANY was founded in 2019 on the threshold of the trend of green consumption - open a new brand for eco products to contribute to the improvement of the marine environment, reduce plastic waste and plastic straws. They are 100% all-natural straws, produced from starchy cereals, vegetables and fruits with special formulas.

Our straws can be used to replace plastic straws and even as cooking ingredients. If you accidentally throw away our straws and they are blown away to rivers, lakes or the sea, they can be considered as a good food source for fish and marine life.

After 5 years of successful development specializing in eco-friendly green straws, we have researched and developed one more product line: Healthy noodles. With a soft and smooth texture, our healthy noodles are easier to digest compared to many other types of food, making them suitable for individuals with sensitive digestion and it contributes to diversifying the daily menu. It has high nutritional value and aesthetic appeal.

Eco Straws Vietnam commits to making our products from 100% natural materials, while emitting no carbon dioxide - by making use of solar power.

The number of our employees is over 100 people including office staffs, skilled workers. Our Capacity could reach 10 containers 40ft or more depending on order lead time. We have been exporting our products to main markets such as France, Netherlands, Switzerland, United States, Australia....

Our Mission

Eco Straws Vietnam's mission is to produce eco-friendly and healthy products, contributing to enhancing the reputation of Vietnamese agricultural products for global reach, creating job opportunities for local farmers, and generating foreign currency revenue for the nation.

Our VISSION

Become one of the leading companies in the field of green and environmentally friendly food production. Ecostraws Vietnam will inspire and spread the spirit of environmental protection to the community while contributing to creating a sustainable future for the next generation.

Story of Rice

From the far East Asia, Rice has become friend of human for thousand years. Rice is not only the main cereal but also inspiration for many creations of our living. On the field, raised by the hand of hard-working farmer, the rice plants absorb the fresh air, nutritious alluvial water until the aristas heave and ripe golden.

We chose the best source of hand-harvested rice, cosher and proceed artwork-likely to create products that are so useful and close to daily life. By that way, we not only praise the value of the Rice, but also support to the honorable farmer.

The Source

1

Our edible straws and other products are made from rice flour and the colors of these products come from vegetables native to Vietnam. The raw materials undergo strict testing before reaching the factory.

2

Rice is collected, then pulverized, sorted and cleaned. No chemicals or additives are used in the entire manufacturing process. It is 100% chemical-free.

3

To create these unique and beautiful products, they are shaped using a heated die, followed by steaming, drying, and cutting processes. Through careful processing, we can produce multiple plates, rice straws, and cutlery.

COFFEE RICE NOODLES

Ingredients: 100% white rice

Benefits:

Rice noodles are a refined food made from rice, closely associated with the wet rice civilization, and rich in the traditional essence of the Vietnamese people. With a soft and smooth texture, rice noodles are easier to digest compared to many other types of food, making them suitable for individuals with sensitive digestion. Especially, due to the high fiber content from rice and coffee in the noodles, it helps stabilize the body's blood sugar. The product has a low fat content, making it ideal for people on a diet or weight loss regimen, and it contributes to diversifying the daily menu.

BLACK RICE NOODLES

Ingredients: 80% black rice, 20% white rice

Benefits:

Black rice noodles are nutritionally superior to other rice noodles. They support a healthy digestive system with high fiber and low calories and starch. They aid weight loss, reduce cholesterol, blood pressure, and benefit diabetes management. The noodles contain Vitamin C, boosting immunity, overall resistance, and heart health. For pregnant women, they provide folate and folic acid, reducing neural tube defect risk. Including black rice noodles in daily meals reduces the aging process, fights cancer, and improves visual health with rich antioxidants.

RED RICE NOODLES

Ingredients: 90% white rice, 10% fermented red rice

Benefits:

Rice noodles are a refined food made from rice, closely associated with the wet rice civilization, and rich in the traditional essence of the Vietnamese people. With a soft and smooth texture, rice noodles are easier to digest compared to many other types of food, making them suitable for individuals with sensitive digestion. Especially, the component of red rice flour in noodles has excellent effects on reducing cholesterol, improving cardiovascular health, and maintaining stability in energy metabolism. The product has a low fat content, making it ideal for people on a diet or weight loss regimen, and it contributes to diversifying the daily menu.

MORINGA OLEIFERA RICE NOODLES

Ingredients: 90% white rice, 10% moringa oleifera powder

Benefits:

Rice noodles are a refined food made from rice, closely associated with the wet rice civilization, and rich in the traditional essence of the Vietnamese people. With a soft and smooth texture, rice noodles are easier to digest compared to many other types of food, making them suitable for individuals with sensitive digestion. Especially, moringa oleifera rice noodles support bone density, protect the liver, and regulate blood pressure. The product has a low fat content, making it ideal for people on a diet or weight loss regimen, and it contributes to diversifying the daily menu.

RAINBOW RICE NOODLES

Ingredients:

- White rice noodles: 100% white rice
- Black rice noodles: 80% black rice, 20% white rice
- Turmeric rice noodles: 90% white rice, 10% turmeric starch
- Red rice noodles: 90% white rice, 10% fermented red rice powder
- Coffee rice noodles: 90% white rice, 10% coffee powder
- Moringa oleifera rice noodles: 90% white rice, 10% moringa oleifera powder
- Butterfly blue pea flower rice noodles: 90% white rice, 10% Butterfly blue pea flower powder.

Benefits:

Besides preserving the rich flavor of white rice, we also create rainbow noodles with 7 unique colors extracted

from natural vegetable powder, enhancing nutritional value, aesthetic appeal and providing a more delicious taste experience for the consumers. Rainbow noodles have a soft texture, easily absorbed and digested, making them suitable for those with sensitive digestion.

1. White rice noodles: Retaining the original flavor, low in calories, and supporting weight loss
2. Butterfly blue pea flower rice noodles: rich in antioxidants, helping to combat aging
3. Turmeric rice noodles: Anti-inflammatory properties, helping to prevent and protect against cancer
4. Coffee rice noodles: The fiber in rice and coffee helps to keep blood sugar levels stable
5. Black rice noodles: It is one of the optimal alternatives for lowering cholesterol and managing diabetes
6. Red rice noodles: keeping energy metabolism stable
7. Moringa oleifera rice noodles: Against osteoporosis, protect liver, and control blood pressure.

CORN NOODLES

Ingredients: 100% Vietnamese corn
(Non-GMO)

Benefits:
Corn noodles offer numerous health benefits. They provide high amounts of carbohydrates for energy, vitamins B and C for overall health, and dietary fiber for digestion and cardiovascular health. They are suitable for people with high blood pressure and diabetes. Consuming corn noodles daily will supplement essential minerals such as iron, magnesium, and calcium, which help maintain strong and healthy joints, and prevent frequent anemia. Particularly, corn noodles contain a high level of antioxidants that support reducing the risk of cancer and improving eye health, even enhancing skin beauty.

SUGAR FREE RICE NOODLES

Ingredients: 100% rice (sugar-free)

Benefits:
Rice noodles with separated sugar is a special product where natural sugar is extracted from rice, with a low sugar content in carbohydrate and low fat content. This makes it an optimal choice for people with diabetes, prediabetes, obesity, and high blood pressure, helping them maintain a healthy lifestyle. With a soft and smooth texture, sugar-free rice noodles are easily absorbed and digested compared to other rice-based products, making them suitable even for sensitive digestive systems. Despite being sugar-free, these rice noodles retain the distinctive and rich flavor of rice. As a result, they can be transformed into various dishes, adding diversity to daily meals while still ensuring a balanced nutritional intake for those on a restricted diet.

KUDZU VERMICELLI

Ingredients: 100% pure kudzu flour.

Benefits:
Kudzu vermicelli is made with 100% pure kudzu flour. The source of fiber, vitamins, and minerals such as potassium, magnesium, iron and other nutrients found in kudzu, is beneficial for supporting digestion and reducing the risk of cardiovascular disease and diabetes. Besides, it has a positive effect on helping weight control and lowering the risk of obesity due to its fatless and low-calorie content.
