

ECO STRAWS VIETNAM

WHO ARE WE?

Born from a love and responsibility for the environment, Eco Straws Vietnam Export Joint Stock Company was established in 2019. After extensive research and testing, we are proud to be the leading provider of high-quality rice straws in Vietnam. Made with 100% natural ingredients, our straws are safe for consumers' health and contribute to environmental protection.

ECO STRAWS RICE STRAWS

Eco Straws rice straws are made from rice flour and various grains, combined with colors from natural leaves, flowers, roots, and fruits. They are safe to use and fully biodegradable in the environment.

With continuous efforts to develop, we are proud to have obtained FDA, LFGB, SGS, HALAL, and ISO 22000-2018 certifications, allowing us to export to markets such as Japan, the EU, the USA, and Canada.
