AGRO-FORESTRY-AQUATIC PRODUCT EXPORTS LIKELY TO POST POSITIVE GROWTH FROM Q4

The export turnover of agro-forestry-aquatic products in the third quarter of 2023 is expected to be equivalent to the figure in the same period last year, and is likely to see positive growth in the fourth quarter, said Deputy Minister of Agriculture and Rural Development Phung Duc Tien .

He said the export value in the first five months of this year was estimated at 20.26 billion USD and is likely to reach 55 billion USD for the whole year.

FDI FLOWS INTO VIETNAM FORECAST TO INCREASE IN H2: EXPERTS

The flows of foreign direct investment (FDI) into Vietnam are forecast to increase in the second half of the year as the downturn has been improved in recent months, experts have said.

Only a few days after Do Nhat Hoang, Director of the Foreign Investment Agency under the Ministry of Planning and Investment
